SAFETY TRAINING

- ❖ AFS PETROLOGIX now has training available to meet your Company Compliance needs.
- ❖ Whether you are in the need of educating New Employees in the Basics of Safety at introductory level awareness, or you have Experienced Employees that require a more in-depth understanding of OSHA Regulations and industry Standards, we can provide the criteria to educate and certify your employees to meet your Safety Compliance demands.
- ❖ With course offerings, such as PEC Core Compliance, you have confidence in your employees succeeding in the learning and understanding of the general industry and safety in your workplace.

SERVICES PROVIDED

- ❖ All AFS PETROLOGIX Training Instructors are Qualified Professionals who are dedicated to educating workers in Safety Awareness and Accident Prevention. We ensure that every student is properly trained and leaves with the knowledge and confidence to actively participate in bettering a Safety Culture at the Worksite.
- ❖ We provide consulting to our clients to determine the area of educational needs for employees, specific to the jobs they will be expected to perform.
- ❖ Training can be provided here at our local facility in New Iberia, LA, or we can arrange

in-house training directly at an appropriate location at your convenience.
